Overview

I am a recent graduate with experience working on projects using Next.js. I am looking for an opportunity to work in a professional environment where I can develop my programming skills, learn from colleagues, and contribute to real-world projects. I am eager to acquire new knowledge, adapt quickly to work, and always strive to complete assigned tasks effectively. Additionally, I am open to working on backend development to broaden my skill set and progress toward becoming a Full-Stack Developer.

Skills

- Experienced in working on Next.js projects and programming with Javascript and TypeScript.
- Understanding of HTML, CSS, and UI frameworks such as Tailwind CSS and Bootstrap.
- Ability to create responsive web designs adaptable to different screen sizes.
- Teamwork skills.
- Ability to communicate and read technical documents in English.

Work Experience (Projects)

Library CMS

(2024/12 - 2024/3)

Customer	Educhain company
Description	Developed a Library CMS for Educhain, enabling efficient management of library book collections. The system provides an intuitive interface, allowing users to easily manage and interact with data.
Link	https://educhain.vn/en
